

ALUMINUM & COPPER ROOF DRAINS ACCESSORIES

3-BOLT ALUMINUM FLIP-TOP DOME

NEW CONSTRUCTION • RETROFIT

PRODUCT INFORMATION

SKU: P-P12022

FEATURES:

- Heavy duty die-cast powder coated Aluminum dome, crafted for maximum corrosion resistance
- Compatible with all 3-Bolt Aluminum and Copper drains
- Includes a QR code laser marked on the dome lid for quick registration & maintenance history access
- Features 33 weir slots for maximum water flow
- Easy maintenance facilitated by a single Phillips screw
- 3-bolt design ensures efficient installation
- Vandal-resistant yet contractor-friendly for ease of use

APPLICATION:

Dome strainers in roof drains prevent debris, such as leaves and twigs, from clogging the drainage system while allowing water to flow freely. They help maintain optimal drainage, protect plumbing from damage, and enhance safety by reducing the risk of standing water on the roof surface. Additionally, the removable lid facilitates easy maintenance, allowing for quick cleaning and inspection of the strainer without dismantling the entire system.
