

BREATHERS

INSULATED ONE-WAY BREATHER

PRODUCT INFORMATION

SKU: P-13008W

FEATURES:

- Two piece Premium gauge spun aluminum with a 0.05" (1.5mm) material thickness
- The secured vandal-proof cap prevents rain or snow entry
- One-way roof vent featuring a flexible diaphragm, minimizing moisture and extending roof life
- Vented 7" wide cap with integral bug screen
- 12" tall vent height featuring a 15" wide deck flange
- 3/4" thickness polyurethane foam insulated walls

APPLICATION:

One-way breathers allow moisture and trapped air to escape from the roofing system while preventing water and debris from entering. This helps reduce condensation and pressure buildup, prolonging the roof's lifespan by preventing damage from moisture. Placement depends on the breather's venting capacity. For a 3.5" (89 mm) throat opening, it is recommended to install one breather for every 1000 square feet (92.9 square meters) of roof area.
